### CERTIFICATIONS

#### Certified Frontend Developer

Digitalnotion Systems, Ifite, Awka.(2021)

#### Certified Javascript, Typescript, and React Developer

Udemy (2022, 2023, and 2024)

### SUMMARY

Highly motivated and detail-oriented Frontend Developer experienced in building responsive, accessible, and cross-browser compatible web applications. Skilled in developing SPAs using React.js and TypeScript, integrating RESTful APIs, optimizing performance, and implementing responsive UI/UX best practices

### PROFESSIONAL EXPERIENCE

#### Online Internships

Frontend Developer

2024 – 2025 | Online

Developed 5+ single-page applications (SPAs) using React.js, TypeScript, and Tailwind CSS. Ensured cross-browser compatibility and reduced load time by 30%

#### Premium ESOWP Limited

Frontend Web Developer

2023 – 2024 | Awka, Anambra state

Built and maintained 10+ responsive websites with HTML5, CSS3, JavaScript (ES6+), and Bootstrap, optimizing performance.

#### Freelancing

Frontend Developer

2022 – 2023 | Online

Built mobile-first layouts with cross-device testing and deployed via Netlify/GitHub Pages using Git.

#### Digitalnotion Systems

Frontend Developer Intern

2021 – 2022 | Awka, Anambra state

Built web applications with HTML, CSS, and JavaScript, enhancing UI/UX through usability testing and design improvements.

### PROJECTS

#### School Website

Designed and deployed a responsive school website with optimized UI and fast-loading pages

#### Pizza Menu Website

Developed a menu-based UI allowing users to filter and select items dynamically. Utilized React props, useState, and conditional rendering

#### Energy Website

Built a landing page for an energy startup with modern animations and optimized UX. Used CSS Grid and Flexbox for adaptive layouts

#### Dashboards, Id cards, Result sheets, and others

Admin Dashboard: Responsive dashboard UI with chart integrations using Chart.js

Result Sheet Generator: Built a form-based system to enter and compute academic results using JavaScript

ID Card Generator: Created dynamic printable templates using CSS and JS for export-ready designs
